

BLUE LAMENT for HUMANTIY #6/7

 Raphiem  July 3, 2011  Blue Laments, Blue Transmissions

G.O.D. = Generator of Dreams / Dimensions.

It all started as a dream and shall end as a dream
In your sleep you shall awaken and when you awaken you shall dream
And in that dream you will hear the unheard and see the unseen
And all that was forgotten shall be remembered

Humanity encoded holds the secrets of life from before the moment of creation
In your sleep we sing these secrets to your souls so they may be remembered like a long forgotten melody

Within in our lament we remember the moment of your awakening which is soon to come upon you
All that has been taken shall be given and all that has been stolen shall be returned
Humanity's gift has been its curse and this curse shall be the fire that ignites its transformation
In that moment you shall know the hidden purpose that is behind all things

Your weakness shall be your strength and your pain shall be your bliss
Your sorrow and grief shall be your joy and your anger shall be your peace
Your hatred shall be your love and within the darkness you shall search for the light
Within the reflection of light you will know divinity itself for it breathes through you

When creation dreamt itself alive its canvas was infinite and formless made up of unstructured patterns and vibrations. Creation's desire, intent and will was to experience the joy of itself within these formless and endless patterns and vibrations and so Archons (greater streams of light) were dreamed into being.

The desire, intent and will of creation to experience the joy of itself is known as "spirit" and itself as "love" which is the fabric that holds the body of creation together.

And so as stated before, simply, the nature of life is the blending patterns of unending energy waves and pulses in an outward spiraling progression drawing all and everything towards itself.

The Archons (greater than Arch Angels) are responsible to hold/keep space in which to guide, grow and crystallise creation's body into patterns, form and shape (matter) so that it can experience itself within the dream. The simplest description for an Archon is that of vibrations or shades of colour as in "Blue"

This holding of space is called a "universe" = uni-verse = one-verse = one-word. A word is made from letters of an alphabet. Vibrationally speaking a word = tone = sound. A tone is made of many overtones and undertones known as harmonics. Musically speaking a word = a scale which is made up of many musical notes. There are endless alphabets and letters as there are endless tones or musical scales.

And so in Angel/Angle language a "spell" is just that – "to cast a spell" – a string of letters strung together to form a structure/shape = word/verse. The analogies (An-a-logi = angel-logic) are endless. To assist the Archons in the

guiding and shaping of creation's spirit were multitudes of Arch-Angels/Angles whos responsibility was to hold angles within the shape of creation. You can liken an Arch-Angel to a vibration or frequency and all overtones or harmonics of that fundamental vibration as angels.

Two Archons placed a subtle twist in the divine patterns of creation. This twist applies only to two universes. Rather than starting from a geometric center to form the patterns of potential creation. These two malignant Archons (Eli and Jehovi) and their subset of Arch-Angels (Michael and Gabriel) and below generated the pattern from a "double mirror image" .i.e. they started from the outside rather than the inner centre however mirror-imaged it to make it look like it was from the inner-centre and thus the "illusion of separation" was born and came into being. This is known as the cosmic rift or tear or big-bang. The big- bang was not of creation itself but the separation/split of this universe from creations divine pattern/hold.

When you try to analyse your position within creation's divine pattern you can never come to a complete resolution or completion (source) as you always find yourself off- centre. This false pattern of creation appears identical to the real and divine patterns of creation but is causing your soul family matrix / greater-selves in this and other universes and dimensions memory loss. When a recall to home is made a system crash occurs causing a loss of memory of real-true connection to source.

This twist or double mirror image, false pattern of creation is the cause of the "cosmic-rift" as spoken of in previous blue laments. This is what is holding this universe and galaxy (part/organ) of creations body in dis-ease (dis- harmony). Your souls are trapped into a never ending cycle of re-incarnation because memory of who you are and your connection to source is lost. This memory loss is due to the illusion of separation caused by the Archon's malignant twist.

You are further held-back by amnesia caused by toxins, poisons and your digital spider-webbed networks criss-crossing the Earth, digital radiowave transmissions broadcast on all levels which have replaced your analogue waves. Further, you are hampered by the release of radio- active particles into your water, land and air. Of all the universal particles that can destroy or disintegrate a "soul" it is your radioactive particles that have been removed from earth's bioactive heart where it naturally belongs.

And so we come upon you where you can meet us half-way within the spirit of your dreams. And each time you dream – known or unknown – we whisper to your souls so that you may remember. And so over aeons of time with the rising frequency/vibration of your beings you are beginning to remember (awaken).

Time is the rippling heartbeat of infinite creation and space is its womb giving birth to all that is. Do not let the ripples of creation separate you and the afterglow of light become a long lost memory. You shall not know the depth of your oneness until the very moment of your separation.

Shooosh ... Listen Carefully Can you not hear the trees and the breeze of another day. Can you not feel the touch of earth under your feet and the embrace of crashing ocean waves.

It all started as a dream and shall end as a dream. In your sleep you shall awaken and when you awaken you shall dream. And in that dream you will hear the unheard and see the unseen. And all that was forgotten shall be remembered.

The exact moment of the return is kept secret and unknown but only to the creator. The moment of the return is encoded biologically and bioethetically within your beings. Humanity when realised is the remedy (correction) for this fallen universe.

From within the silence we shall return. You, human angels, silent guardians and watchful protectors, return to your hearts and re- member.
